

Round tables

1. Blockchain and distributed ledgers

- Smart contracts
- Traceability

2. Security/Cryptography

- Decentralized/distributed Security
- Data protection/Privacy

3. Distributed/decentralized software and applications

- API
- Scalability/Performance
- Distributed computing/programming
- Decentralized computing

4. Decentralized/distributed data

- Data sharing
- Decentralized data storage/Large-scale & distributed database
- (Scalable/distributed) data analytics
- Data semantics

5. IoT

- Edge computing, distributed computing for IoT
- HW/SW blending, smart sensors
- Communication, sensor networks, interoperability

6. AI

- Multi-agent systems
- Recommendation/reputation mechanisms
- Decentralized learning

7. Open table > other topics

- People: People empowerment, decentralized democracy, Pension
- Manufacturing: Decentralized manufacturing/supply chain/energy/education/logistics/3D printing/equipment/machines
- Telecom: Mesh networks, caching systems
- Other...
